

# Calendar of Health Events

Promote the Live Like Your Life Depends On It campaign monthly by incorporating campaign materials into monthly theme activities.

## October

### National Breast Cancer Awareness Month

National Breast Cancer Awareness Month should be used to educate women about the importance of early detection. Early detection is critical in the battle against breast cancer. Excluding all cancers of the skin, breast cancer is the most common cancer among women in Missouri and accounts for nearly one-third of all cancers diagnosed in women. Women age 40 and older should have a mammogram every year and should continue to do so for as long as they are in good health. Women age 65 and older are less likely to get mammograms than younger women, even though breast cancer risk increases with age. Hispanic women have fewer mammograms than Caucasian women and African American women. Women below poverty level are less likely than women at higher incomes to have had a mammogram within the past two years. Free breast and cervical cancer screenings are available to qualifying women through the Show Me Healthy Women program. For more information, visit the Show Me Healthy Women web site at <http://www.dhss.mo.gov/BreastCervCancer/Eligibility.html>.

### Suggested Activities:

- Schedule a local health care provider to give a breast cancer awareness presentation at a local library, church group, or women's club. Use the Live Like Your Life Depends On It Breast Cancer message card or poster to promote the event. Distribute the Live Like Your Life Depends On It Screening Card at the presentation to promote other important health screenings for women.
- Encourage mammograms among the elderly by distributing the Live Like Your Life Depends On It Breast Cancer message card or posting the Breast Cancer poster at senior centers. Remind them that Medicare covers a mammography screening every year for women age 40 and older who are Medicare recipients. For more information on Medicare's coverage of mammograms, go to <http://www.medicare.gov/Publications/Pubs/pdf/11100.pdf>.
- Solicit licensed cosmetologists and beauty professionals to promote breast cancer awareness by distributing the Live Like Your Life Depends On It Breast Cancer message card to clients or posting the Breast Cancer poster in their salons. Encourage them to share information regarding free breast and cervical cancer screening available through Missouri's Show Me Healthy Women program. More information on Missouri's Show Me Healthy Women program can be found at <http://www.dhss.mo.gov/BreastCervCancer/Eligibility.html>.

- Ask the local newspaper to promote Breast Cancer Awareness Month by publishing the Live Like Your Life Depends On It Breast Cancer ad or an article relating to breast cancer. Include information on free breast and cervical cancer screening available through the Missouri's Show Me Healthy Women program or Medicare. More information on Missouri's Show Me Healthy Women program can be found at <http://www.dhss.mo.gov/BreastCervCancer/Eligibility.html>. For more information on Medicare's coverage of mammograms, go to <http://www.medicare.gov/Publications/Pubs/pdf/11100.pdf>.
